Kona

Introducing the all-new Kona.

Be Yourself. On Purpose.

The distinctive, authentic KONA is an SUV so unapologetically confident that it sets itself apart from any other SUV in its class.

Your. Style.

With the combination of sculptured lines and a definitively stylish edge, the all-new KONA tells a story from every line. There is no mistaking the distinction of this SUV's design.

The KONA's distinct look allows you to embrace your very unique style. Take the challenge. Dare to be different.

Safety.

Blind Spot Detection

The KONA's dedication to safety is further enhanced with Blind Spot Detection (BSD). This system displays a visual warning in the side mirrors when another vehicle approaches the rear blind spot, while Lane Change Assist increases the effectiveness of the BSD by giving an audible warning when the indicator is used. The rear Cross Traffic Alert adds further value, because it warns drivers of approaching cross-traffic.

Driver + Passenger + Curtain Airbags

Anti-lock Braking System (ABS) + Electronic Stability Control (ESC) + Downhill Brake Control (DBC) + Hillstart Assist Control (HAC).

Rear Cross Traffic Alert

KONA helps you take care of yourself and everyone around you. The KONA offers one of the most advanced safety and driver assistance packages in its class with this intelligent Cross Traffic Alert technology.

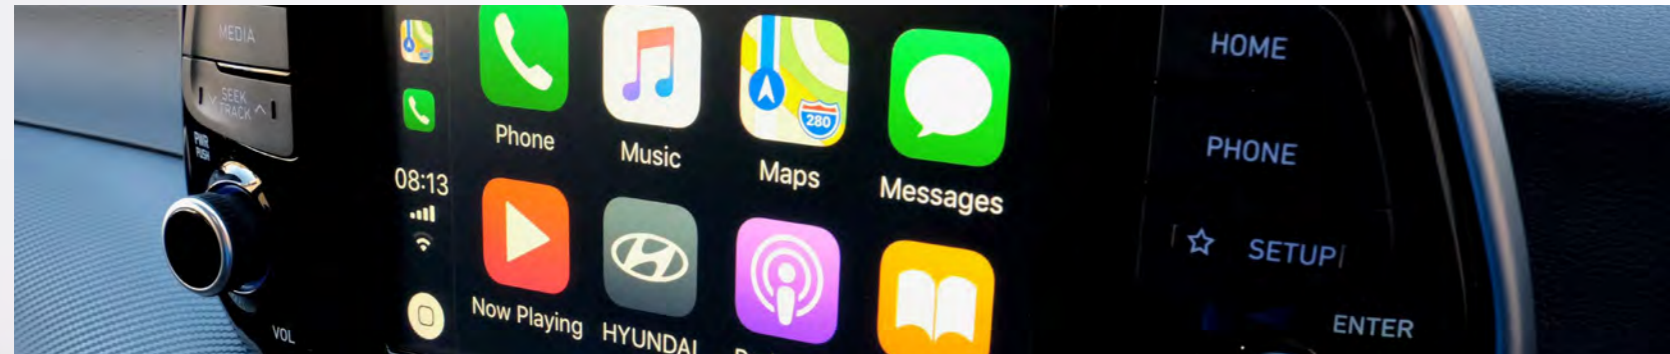

LED Daytime Running Lights

The all-new KONA's design has taken a turn in a bright new direction. The front twin headlight design with LED daytime running lights forms an unmistakable front light signature. Being this good looking has never been brighter, the cutting-edge lighting technology takes seeing the bright side to a new level.

Convenience.

Infotainment system with CarPlay

Apple CarPlay takes integration to the next level. Now you can get directions, make calls, send and receive messages and enjoy your favourite tracks - all on your central display. Simply sync your iPhone with your on-board display for seamless entertainment, communication and navigation.

Rear Park Assist with camera

The all-new KONA is also equipped with an advanced Rear Parking Assist System, complete with rearview camera display and steering guidelines to simplify parking.

Engine data

The all-new KONA is the very first model to be available with a 1.0 Turbo engine option. (Note: Available for manual only)

Cruise Control

Let your KONA take you on the ultimate journey, sit back, relax and take in the sights while the cruise control takes care of the rest.
